### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

**Group I, claims 1-39 and 54, drawn to a cleansing pad.**

**Group II, claims 40-53 and 55-62, drawn to a method of manufacturing a cleansing device.**

**Group III, claims 63-91, drawn to an apparatus for manufacturing a cleansing device.**

2. The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Inventions II and I are related as process of making and product made. The inventions are distinct because in the instant case, the product as claimed can be made by another and materially different process such as one not requiring providing a cleansing agent that is in essentially solid form at a first temperature range, and in essentially pourable molten form at a second temperature range, and heating the

Art Unit: 3723

cleansing agent to within the second temperature range such that the cleansing agent is in pourable molten form.

Inventions I and III are related as apparatus and product made. The inventions are distinct because in this case, for example, the product as claimed can be made by another and materially different apparatus such as one not including a container for holding a molten cleansing agent, a support for holding a substrate comprising a web of fibers, and a platform that lowers the substrate held by the support into the container such that at least a portion of the substrate is immersed into the molten cleansing agent.

Inventions II and III are related as process and apparatus for its practice. The inventions are distinct because in this case, the apparatus as claimed can be used to practice another and materially different process such as one not requiring providing a cleansing agent that is essentially solid form at a first temperature range.

Therefore, there is no single general inventive concept here defined by the three Groups of Inventions because there is no technical relationship among the inventions that involves at least one common or corresponding special technical feature.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does

not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Randall Chin whose telephone number is (571) 272-1270. The examiner can normally be reached on Monday through Thursday and every other Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Hail can be reached on (571) 272-4485. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
